

SECTION FOUR – SURGICAL GLOVES

INTRODUCTION

Surgical gloves are issued to provide protection to wearers from body fluids.

The gloves are to be worn under Firecraft gloves at all incidents where body fluids are known or likely to be present.

STANDARD ISSUE

The gloves are issued in bulk as required. They are carried in First Aid boxes on all appliances.

USE

The gloves are disposable, and after contamination should be sealed in the bags provided and returned to Stores for incineration.
