Report of the Chief Fire Officer

For further information about this report please contact Rod Hammerton, Chief Fire Officer, on 01743 260201 or Ged Edwards, Planning, Performance and Communications Manager, on 01743 260208.

1 Purpose of Report

This report updates Members on the status of risks on the Corporate Risk Register.

2 Recommendations

The Committee is asked to note the contents of the report.

3 Background

Following risk management training in March 2016 Members requested that the Corporate Risk Register should be reported to the Fire Authority twice a year. With the Audit and Performance Management Committee (APMC) receiving a quarterly report.

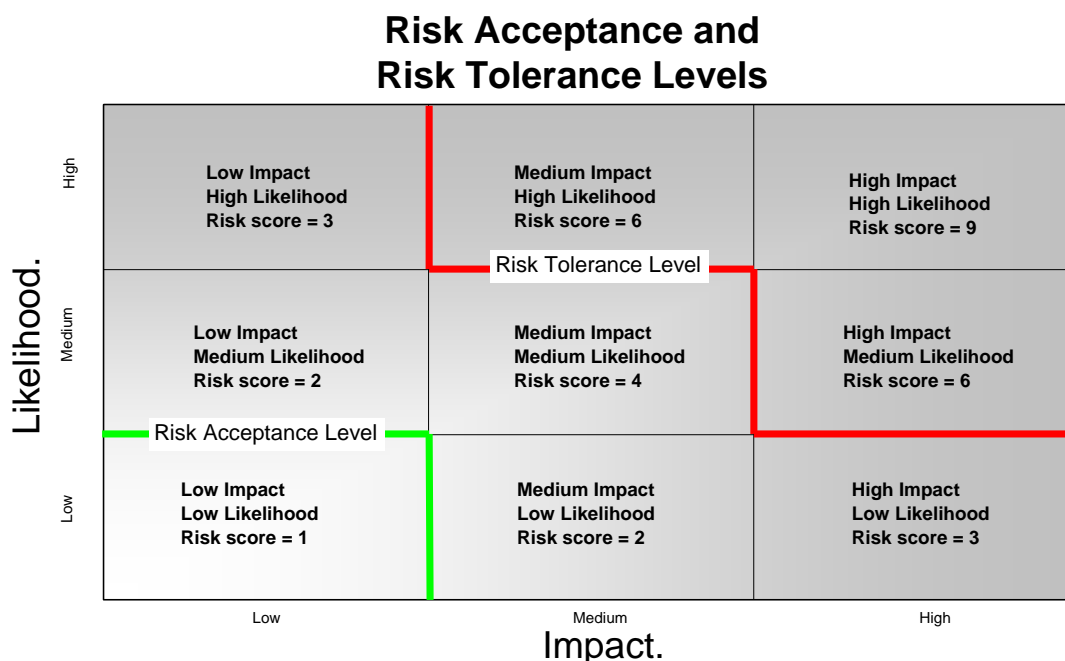

Following discussions with the Risk Member Champion and the Vice Chair of APMC, the format of this report has been varied from previous reports. Appendix A is a summary of the Corporate Risk Register and Appendix B covers all details that are captured about each risk on the register.

4 Risk Acceptance and Tolerance Levels

The purpose of risk management is not to eliminate all risk, but to reduce the risk to a level that the Authority is prepared to tolerate. This will vary depending on the Authority's current level of 'Risk Appetite' and is defined by the Authority setting its 'Risk Tolerance Level'. This level essentially acts as a target, with any risks higher than this level attracting appropriate effort and resources in an effort to reduce it to below this level. This target therefore acts as a management indicator, with greater levels of monitoring being required for those risks above the level, than for those below it.

In addition to the upper level, it is also appropriate to set a lower level target, called the 'Risk Acceptance Level'. Any risks assessed as being lower than this level should attract minimal effort and resources. This helps to ensure that resources are not wasted trying to reduce risks unnecessarily.

The Risk Management Brigade Order reflects the current risk Tolerance and Acceptance level and are shown in the table below.

5 Risk Management Process

The table in Appendix A shows a summary of the current risks on the corporate risk register. Appendix B shows more detailed information on each of the individual risk including: the risk title, the risk owner, a description of that risk, the counter measures that are either being applied or Officers are working to apply, the level of risk without controls, with controls and an assessment of the current level of risk. There is also a narrative column to enable risk owners to comment on the information provided where relevant.

Changes from the Policing and Crime Act	Service Delivery	Rod Hammerton	17/03/2016	<p>Government and local policy regarding election and powers of PCCs monitored for potential risk impact on SWFRA. Regular meetings with PCC taken place.</p> <p>Better engagement through CFOA with the HO</p> <p>PCC has been invited as a non voting participant in FRA</p> <p>Shropshire, Hereford & Worcester and Warwickshire Police and Fire Collaboration Group formed and focusing on "quick wins" in its formative period.</p> <p>West Mercian Fire Bloc being cultivated to focus initially on technological collaborations</p> <p>FRA and Officers actively engaged in PCCs development of a business plan to identify where PCC can add most value. This is to ensure SFRS are able to influence outcomes.</p>	9	<p>July 2017 PCC has now published his business case for public consultation with a closing date of 12/09/17.</p> <p>The Fire Authority and the constituent authorities are considering their view on the business case.</p> <p>SFRS remain engaged with H&W FRS regarding any response to ensure a consistent approach.</p> <p>Two full staff briefings have been held to share information and encourage staff to respond individually to the consultation.</p>

LACC (Local Authority Controlled Company)	Policy	Andy Johnson	27/08/2013	<p>Establishment of board of directors made up of Fire Authority members and a Senior Officer</p> <p>Establishment of a company manager</p> <p>Structure based on companies house guidance</p> <p>Legal and financial advice sought at set up from Clerk and Treasurer.</p> <p>In life legal and financial advice from 3rd party.</p> <p>Company using contractors with skills, knowledge and experience overseen by company manager.</p> <p>QA of the product overseen by company manager. (Feedback forms and training to maintain competencies)</p> <p>Professional indemnity insurance taken out.</p> <p>A&PMC monitor 1/4ly performance</p> <p>Review and approval of Business Plan in October 2015.</p> <p>Approval by the Fire Authority for the company to continue for the current year (2016/17) whilst a new Business Plan is developed.</p>	<p>April 2017</p> <p>No change from previous update below</p> <p>With the Board having agreed to enter a trial year, during which the quantity of sales is greatly reduced and the breadth of products is also tightly constrained, the risk levels relating to this risk are considered to be at their minimum. It should be noted that, despite to the above points, all of the controls, highlighted in the controls section, remain in place.</p> <p>For this reason the current assessment ratings have been reduced from the previous ratings of (Probability - 2, Impact - 3, Overall = 6) to (Probability - 1, Impact - 3, Overall = 3).</p>
