

## **Integrated Strategic Planning Process 2012/13 and the Medium Term Corporate Plan**

### **Report of the Chief Fire Officer**

For further information about this report please contact Paul Raymond, Chief Fire Officer, on 01743 260201 or Ged Edwards, Planning and Performance Manager, on 01743 260208.

### **1 Purpose of Report**

This report outlines how the Service will continue to align service, financial and improvement planning, the result of which will culminate in the 2012/13 budget, Medium Term Corporate Plan (MTCP) and the publication, in April 2012, of the 2012/13 annual one-year Service Plan.

### **2 Recommendations**

The Strategy and Resources Committee is asked to:

- a) Task the Strategic Risk and Planning (STRaP) Working Group to review the key issues for the 2012/13 planning process; and
- b) Recommend the Strategic Planning timetable, set out in Appendix B, to the Fire Authority.

### **3 Background**

The strategic planning process is built around a number of dependencies and milestones, which overlap into three key areas: service, financial and improvement planning.

Following a review of service planning by officers during 2007/08 an integrated strategic planning process was developed in order to demonstrate a more joined-up approach to the whole issue of planning. This process has been continued in subsequent years until the introduction of Public Value, which resulted in a number of changes to the timetable.

## 4 Service Planning

Changes to service planning were agreed by the Fire Authority in 2010, which involved subsuming Integrated Risk Management Planning (IRMP) into the Public Value process. The process spans a twelve-month period and involves engagement with a wide range of stakeholders through structured consultation sessions. The 2011 process is currently under development in conjunction with the STRaP Working Group. The proposed process is set out for agreement by Members at agenda item 8.

## 5 Budgeting and the Medium Term Corporate Plan

The MTCP 2011/15, agreed by the Fire Authority in February 2011, incorporates the essential contents of the Medium Term Financial Plan and the findings arising from the 2010 Public Value review. The MTCP is a working document that details how the Service intends to develop, cost and implement future proposals / changes identified as part of the Public Value process.

It is proposed to update the MTCP 2011/15, currently on the Fire Authority's website, to produce a MTCP 2012/16. The starting point is to set out the agreed plans for the next four years up to 2015/16, and start to model a new fifth year. The budget implications are set out in Appendix A.

The next step is to start to consider the major issues facing the Fire Authority, which are as follows:

Factors largely outside its control:

- i future grant settlements from 2013/14 onwards
- ii pay, price and pension changes from 2012 onwards and external events since the budget was set in February

Factors mainly in the Authority's control:

- iii precept planning
- iv the public value process
- v policies on reserves and balances

It is recommended that STRaP be asked to consider these matters so that officers can bring reports to the Strategy and Resources Committee in September. This would allow time for any additional work by officers to take place in good time for the meetings leading to the Fire Authority meeting on 14 December 2011.

The process and timetable for producing the Authority's five-year budget will continue to link the 2012/13 annual, one-year Service Plan, the five year MTCP, and to work within the public value framework. A detailed breakdown of the planning cycle is set out in Appendix B.

## **6 Improvement Planning**

The third element of the strategic planning process is improvement planning, which traditionally has covered two key areas:

- Improvements to the Service identified through IRMP; and
- Improvements to the Service identified by the Audit Commission and through other internal and external audits.

IRMP is now subsumed within Public Value and as a consequence of the 2010 consultation process improvements to the Service are currently being introduced and monitored.

The previous audit regime is likely to change in 2011. Officers are currently reviewing a consultation document released by Communities and Local Government on the future of local public audit and will report back to Members. Future audit regimes will be considered within the strategic planning process.

Reporting on the Annual Governance Statement (AGS) Improvement Plan has this year been included in the planning cycle.

## **7 Financial Implications**

There are no financial implications arising directly from this report.

## **8 Legal Comment**

There are no legal implications arising directly from this report.

## **9 Equality Impact Assessment**

Officers have considered the Services Brigade Order on Equality Impact Assessments (Human Resources 5 Part 2) and have decided that there are no discriminatory practices or differential impacts upon specific groups arising from this report. An EQIA has therefore not been completed.

## Notes

- i All expenditure figures for 2016/17 are provisional.
- ii All figures, except those for 2016/17, are as agreed by the Fire Authority in February.
- iii Formula Grant assumes a 27.4% fall from 2010/11 grant by 2014/15. 2015/16 then shows a grant standstill plus the consolidation of the tax freeze grant of £337,000.
