

## Capital Programmes 2012/13 to 2016/17 and Prudential Guidelines

### Report of the Treasurer

For further information about this report please contact Rachel Musson, Treasurer, on 01743 252007, or Joanne Coadey, Head of Finance, on 01743 260215.

### 1 Purpose of Report

This report presents the capital programmes for 2012/13 to 2016/17, for consideration by the Committee in the context of Prudential Guidelines.

### 2 Recommendations

The Committee is asked to recommend that the Fire Authority:

- a) Confirm the 2012/13 onward programmes, as set out in the Appendix, as part of its final precept deliberations;
- b) Approve the Prudential Indicators and the Treasury Strategy for 2012/13; and
- c) Approve the Minimum Revenue Provision 2012/13.

### 3 Background

Consideration of the future capital programmes must be in the context of producing a balanced budget. This means that the increases in capital expenditure must be limited by increases in debt charges caused by increased borrowing and increases in running costs from new capital projects.

The Fire Authority must also have regard to the Prudential Code and must set Prudential Indicators for the next three years to ensure that its capital investment plans are affordable, prudent and sustainable.

## 4 Amendments to the Capital Programme

The capital programme approved for consultation purposes in December 2011 produced the following summary.

Total Cost of Schemes	Revenue Consequences				
	2011/12	2012/13	2013/14	2014/15	2015/16
£000	£000	£000	£000	£000	£000
1,755	15	22	47	91	201

### Strategic Planning

Work is continuing on the Service Transformation Programme and, as outlined in report 9, costs for additional projects are being incorporated into future budgets. The projects shown below will be added to the capital programme, but will be funded from revenue contributions. Therefore, there will be no debt charges to add to the revenue budgets, but any in-life running costs will be taken into account.

	2012/13	2013/14	2014/15	2015/16	2016/17
	£000	£000	£000	£000	£000
Corporate Gazetteer	65	-	-	-	-
Fit out of major incident room	30	-	-	-	-
Procurement of people management system	113	-	-	-	-
Positive pressure ventilation fans	30	-	-	-	-
RTC equipment on station vehicles	100	-	-	-	-
Installation of heating system at Tweedale	60	-	-	-	-
Command and control pods and vehicle		50	-	-	-
Light pumping unit		350	-	-	-
Capital training improvements		100	-	-	-
Implement replacement of mobile data terminals			150	-	-
<b>Total</b>	<b>398</b>	<b>500</b>	<b>150</b>	<b>-</b>	<b>-</b>

These additions bring the total value of the capital programme to 2016/17 to £2,803,000, although the revenue consequences in terms of debt charges remain the same.

The capital programme now proposed to the Fire Authority for its 2012/13 budget appears as an **exempt** appendix to this report, shown at item 15 on the agenda for this meeting.

## 5 Treasury Management Strategy Statement

The Local Government Act 2003 requires the Authority to set out its treasury strategy for borrowing and to prepare an Annual Investment Strategy (as required by Investment Guidance issued subsequent to the Act). This sets out the Authority's policies for managing its investments and for giving priority to the security and liquidity of those investments.

The Fire Authority employs Shropshire Council to manage its Treasury Functions, who in turn have appointed Sector Treasury Services as their independent advisor.

## 6 Prudential Guidelines

The Act requires the Authority to 'have regard to' the Prudential Code for Capital Finance in Local Authorities and to set Prudential Indicators for the next three years to ensure that the Authority's capital investment plans are affordable, prudent and sustainable.

The key issue is to ensure that the revenue consequences of the proposed investment will not lead to unacceptable financial pressures in later years.

A summary of the prudential indicators for the budget period is shown below.

<b>Prudential Indicator</b>	<b>2011/12 £000</b>	<b>2012/13 £'000</b>	<b>2013/14 £'000</b>	<b>2014/15 £'000</b>
Capital Financing Requirement (CFR)	8,124	8,124	8,124	8,124
Operational boundary for external debt	8,084	8,084	8,084	8,084
Authorised limit for external debt	11,124	11,124	11,124	11,124
Ratio of financing costs to net revenue stream	4.28%	4.70%	4.82%	4.84%
Impact of new capital investment on Band D precept		9p	4p	15p

## 7 Treasury Strategy 2012/13

### Economic Background

Growth in the UK economy is expected to be weak in the next two years and there is a risk of a technical recession (i.e. two quarters of negative growth). Bank Rate, currently 0.5%, underpins investment returns and is not expected to start increasing until quarter 3 of 2013, despite inflation currently being well above the Monetary Policy Committee inflation target.

## **Borrowing Strategy**

It is anticipated that borrowing will continue to be made through the Public Works Loan Board (PWLB).

The 25 year and 50 year rates are likely to start the year at 4.2% to 4.3%, rising steadily to 4.4% to 4.5% by the end of the year.

## **External versus Internal Borrowing**

Borrowing interest rates are currently attractive, and may remain low for some time; however investment returns are also likely to remain relatively low during 2012/13.

As long as borrowing rates are expected to be higher than rates to be earned on investing our cash balances, and look likely to be for the next couple of years, external borrowing could be avoided in order to maximise short-term savings.

This strategy remains prudent as investment returns are low and counter party risk is high.

However, short-term savings should also be weighed against the potential for incurring long-term extra costs by delaying unavoidable new external borrowing until later years, when PWLB long-term rates are forecast to be significantly higher.

The Fire Authority's capital programme for the next five years does not require a large amount of borrowing; however the situation will be monitored, and, should the prospect of borrowing rates rising significantly in future years and/or investment rates recovering increase, some PWLB loans may be taken. It is not, however, intended that money will be borrowed in advance of spending needs.

## **Investment Strategy**

The Fire Authority's investment policy will have regard to Communities and Local Government (CLG's) Guidance on Local Government Investments (the Guidance) and the 2011 revised CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes (the CIPFA TM Code).

The Fire Authority's investment priorities are:

- a) Firstly, the security of capital; and
- b) Secondly, the liquidity of its investments.

The Fire Authority will also aim to achieve the optimum return on its investments within the primary objectives of security and liquidity.

The borrowing of monies purely to invest or on-lend and make a return is unlawful and will not be undertaken.

This is the initial strategy for 2012/13, and will only be revised by the approval of the Fire Authority, should there be significant improvement in the position of current lending uncertainties.

The Fire Authority will only lend to bodies of high credit quality, that is, the UK Government, local authorities or counter parties with a credit rating acceptable to Shropshire Council and endorsed by the Treasurer, or which effectively take on the creditworthiness of the UK Government itself.

The Fire Authority employs Shropshire Council to manage its investments, and they:

- use three credit rating agencies
- are advised by investment consultants
- monitor and review creditworthiness regularly
- provide appropriate training to Treasury Management staff.

The Treasurer is updated regularly on all changes to acceptable borrowers and may be more restrictive to ensure that security of capital is prioritised. It has been agreed that investments with any one borrower will be limited to £2.0m, except the UK Government through the Debt Management Office (DMO). In the current period of uncertainty, and to ensure liquidity, no loans will be made for a period of more than 12 months.

Investments will be sterling denominated. Funds available for investment are cash flow derived, but there is a core balance available through the Fire Authority's reserves.

At the end of the financial year, the Fire Authority will report on its investment activity as part of its Annual Treasury Report, and will also provide quarterly updates throughout the year.

## **Prudential Indicators for Borrowing and Lending**

Consistent with Treasury and Investment Strategies, the Fire Authority is recommended to adopt the following Prudential Guidelines for the period to 31 March 2015:

### **1. Borrowing**

- a) Upper limit for net principal fixed interest rate exposure - 100%
- b) Upper limit for net principal variable interest rate exposure - 20%

### **2. Investment**

- a) Upper limit for net principal fixed interest rate exposure -100%
- b) Upper limit for net principal variable interest rate exposure - 100%

### 3. Maturing Structure of Fixed Rate Borrowing

	Upper Limit (%)	Lower Limit (%)
Under 12 months	30	0
12 months to 24 months	30	0
24 months and within 5 years	30	0
5 years and within 10 years	30	0
10 years and above	100	70

### 4. Investments for more than 364 days – nil

## 8 Minimum Revenue Provision 2012/13

The Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2008 came into force on 31 March 2008. These regulations introduced several changes to the capital finance regime for local authorities (including fire authorities) in England. The most significant of these was the new provision for dealing with the calculation of Minimum Revenue Provision (MRP), which is the amount that an authority charges to its revenue account in respect of the financing of capital expenditure.

Under the new regulations, an authority is required to set aside an amount of MRP, which it considers prudent. Interpretation within the guidance states that:

“Provision for the borrowing which financed the acquisition of an asset should be made over a period bearing some relation to that over which the asset continues to provide a service.”

Essentially, this means that provision charged to the revenue account in respect of borrowing must reflect the lives of the assets, for which funds have been borrowed.

Authorities are required to produce an annual statement on their policy for MRP for each financial year. This statement is being submitted for the financial year 2012/13, prior to the start of the financial year.

## 9 Options

The guidance on prudent provision contains four options for calculating MRP. Authorities may choose an alternative method, but must demonstrate that it is prudent.

The following policy is recommended to Members for use by the Fire Authority:

- For all borrowing incurred during or before 2006/07, the MRP applied in 2007/08 will be calculated on the basis of 4% of the Capital Financing Requirement (CFR).

This method was used for the 2007/08 financial year, and will continue to be used in future years for all capital expenditure incurred before 31 March 2007. In addition, a voluntary revenue provision of 4% has been made on all assets, other than land and buildings, from schemes starting in 2005/06, to align financing costs to the lives of those assets.

- For all borrowing incurred in 2007/08 and subsequently, the MRP applied has been calculated on the basis of the Asset Life method. This method was selected, because it charges the financing costs of assets over the lives of those assets in equal instalments each year, and follows the same principles as the provisions made by the Fire Authority from 2006/07. This method will be continued into the coming year.

## **10 Financial Implications**

The financial implications are as set out in the report.

## **11 Legal Comment**

The Local Government Act 2003 requires the Fire Authority to “determine and keep under review how much money it can afford to borrow”. In doing so, it “shall have regard to the Prudential Code for Capital Finance in Local Authorities”.

## **12 Equality Impact Assessment**

Officers have considered the Service’s Brigade Order on Equality Impact Assessments (Personnel 5 Part 2) and have decided that there are no discriminatory practices or differential impacts upon specific groups arising from this report. An Initial Equality Impact Assessment has not, therefore, been completed.
