STAY NEAR, KEEP IT CLEAR

Don’t let distractions spark a disaster

Shropshire
Fire and Rescue Service

Always Remember

- Never leave cooking unattended. If you do turn the heat off
- Having a comfortable seat where you cook allows you to keep an eye on things whilst you wait
- Using a timer is a great way to remind yourself to check your cooking
- Keep the cooking area next to your hob clear of any flammable materials
- Do not be tempted to use your hob space as an additional worksurface
- Keep your cooking area clean. Accumulated fat and grease can ignite
- Be mindful of loose clothing that can easily catch fire
- Keep tea towels and cloths away from the cooker
